HUSSEIN ALDARABEA

Communication & Computer Engineer | Network Infrastructure | CCNA Certified
+962 7 9269 7791 | aldarabei.hussein@gmail.com | Amman, Jordan | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Communication & Computer Engineering graduate (2026) with CCNA certification and hands-on training in network configuration, troubleshooting, VLANs, OSPF, and ACLs. Gained practical experience in Windows Server system administration within a virtualized data center environment, including Active Directory, DNS, DHCP, Group Policy, and domain management. Developed a bootable USB cybersecurity toolkit for automated network scanning and vulnerability assessment as a graduation project. Familiar with Linux, MySQL, and IT infrastructure support.

EDUCATION

Bachelor of Communication & Computer Engineering
Al-Zaytoonah University of Jordan | Amman, Jordan | 2021 – 2026

CERTIFICATIONS

Cisco Certified Network Associate (CCNA) — Cisco Systems | April 2026
Machine Learning Certificate — Coursera | Sep 2025

TECHNICAL SKILLS, SOFT SKILLS & LANGUAGES

Networking: Routing & Switching (CCNA-level), VLANs, OSPF, ACLs, Network Configuration & Troubleshooting
System Administration: Windows Server Administration, Active Directory (AD DS), DNS, DHCP, Group Policy (GPO), Domain and User Management
Systems & Infrastructure: Linux, IT Infrastructure Support, System Monitoring, Virtualized Environments, Cloud Computing Fundamentals, Fiber Optic Fundamentals
Databases: MySQL, SQL Queries, Database Design, Normalization.
Security: Network Security, Vulnerability Scanning & Security Assessment, Incident Response
Tools & Technologies: Git & GitHub, Cisco Packet Tracer, MySQL, AWS, VMware, Microsoft Azure.
Languages: English – Working Proficiency | Arabic – Native Proficiency.
Soft Skills: Problem Solving, Team Collaboration, Time Management, Analytical Thinking

TRAINING

Network & Cloud Computing Trainee | Virtual Data IT | Jul 2025 – Sep 2025

- Gained hands-on experience with AWS, Microsoft Azure, and VMware in cloud computing and virtualized data center environments.
- Practiced Windows Server administration, including Active Directory, DNS, DHCP, Group Policy (GPO), and domain, user, and group management.
- Worked hands-on with AWS, Microsoft Azure, and VMware to support cloud computing and virtualization tasks.
- Configured and troubleshot network devices in virtualized IT environments.

Networking Trainee | Cisco Networking Academy | Dec 2025 – Feb 2026

- Completed an intensive three-month networking training program covering routing, switching, VLANs, and network security.
- Practiced real-world network topologies using Cisco Packet Tracer simulation tools.
- Applied OSPF, ACL configurations, and network troubleshooting techniques in lab exercises.

PROJECTS

Pharmacy Database System | Academic Project | 2024

- Designed and developed a relational database system for a pharmacy using MySQL, implementing normalized schema for data integrity.
- Built core modules covering product catalog, prescription records, and inventory management with optimized SQL queries.
- Documented database structure and implemented basic query logic for reporting and data retrieval.

Mill Database System (Al Farrah Mills) | Academic Project | 2024

- Architected and implemented a full database solution for Al Farrah Mills using MySQL to manage business operations.
- Developed modules for product records, customer orders, inventory tracking, and sales data.
- Applied database normalization principles to ensure data consistency and scalability.

Graduation Project: Bootable USB Cybersecurity Toolkit | Academic Project | 2026

- Designed and developed a bootable USB environment for cybersecurity tasks
- Automated network scanning and security assessment to detect vulnerabilities and misconfigurations.
- Integrated scanning, analysis, and incident response modules into a unified toolkit.
- Developed basic capabilities to address identified security issues.

ACTIVITIES & ACHIEVEMENTS

Sumo Robot Competition – Participant | Al Hussein Technical University | 2024

- Participated in a national-level robotics competition, demonstrating engineering problem-solving and teamwork skills.
- Received official participation certificate recognizing technical contributions.
